The Norman Area

The Norman area of the Spa consists of a medium-temperature bio-sauna where essential oils from dried herbs and hay imported from northern countries are diffused into the air.

This is followed by the typical high-temperature Finnish sauna that favors the elimination of excess fluids and creates a feeling of lightness and extreme well-being.

The Norman path continues in the room that contains the ice cascade that collects the finely crushed ice flakes and is useful to create the contrast with the heat accumulated in the body at the end of the sauna. The room also includes the plunge, a typical cold water plunge pool which, always used after the sauna, helps improve blood circulation, sleep quality, and increase energy levels.

Dining

Turchinu Lounge & Terrace is the Resort's main Lounge Bar.

"Turchinu" is the Sicilian expression used to describe the color turquoise, that is, the intense blue-green inspired by the marine landscape of the Western Island. The panoramic terrace extends outside the bar and overlooks the Resort's inner courtyard. It is decorated with the exact same shades of light blue-green, the mere sight of which induces peace and serenity to the mind, allowing the body and mind to relax.

The restaurant offers its Guests a culinary experience that blends modernity with Western customs but stands out for the new twists provided by global influences. The gastronomic options offered by AquaMadre Restaurant include an extensive selection of traditional dishes that retrace quintessentially Sicilian flavors, using only the best local raw materials. The local artichokes, grown near the cliff, absorb all the properties of seawater and take on a particular and unusual marine and seaweed flavor. Also noteworthy are the popular red and pink shrimp from Mazara del Vallo, a favorite in the best avant-garde restaurants, as well as the tasty Sicilian blood oranges known all over the world.

Enjoy this fascinating panorama poolside at our Citrus Pool Bar while savoring a refreshing summer drink lying on comfortable oversized loungers or sitting on fun blue majolica stools in the pool.

An ambience that also invites you to try the extensive selection of products of the traditional Sicilian “roisserie”: pannelle, arancine, onion rings, mixed fried fish with red shrimp from Mazara del Vallo, will be just a sample of the delicacies that you can choose from among our wide range of local dishes.
